

Hot Tracks at LPL - Music Recording Workshops - summer 2014

Record Your Music on Your Computer

Hot Tracks
Workshops - various
Saturdays during
summer 2014
9:30am-1:30pm

Lakewood Piano Lab
5630 Columbia Ave.
Dallas, TX 75214
www.LPLsummer.com

Any musician with equipment, creativity, and training can record finished music on a computer, at home.

Your workshop instructor Andreas Jahn has certainly done so. His first album, 'Beyond Slumber' was released in May 2014 on CDBaby and iTunes, all recorded at home using a Mac and Logic Express.

Workshop host is Wade Cottingham, Lakewood piano teacher since 1998.

Pro Level: \$125 - we start and finish your original song.

Audit Level: \$45 listen, observe, ask.

For available Saturday workshops and to register, visit www.LPLsummer.com

You will learn to record keyboards, guitars, and vocals on the program Logic Pro, or Logic Express, or Garage Band.

If you have a song ready to record, or even a song idea, you can walk away from your workshop with a finished demo recording of your song. Andreas and Wade will help you get your song recorded during the workshop!

Intense fun guaranteed. Healthy snacks will be served during intermission.
